A Real Farm Paper

Is read by farmers and stockmen. It is a class publication. It carries live stock advertising. And the volume of this advertising indicates its circulation and standing among farmers.

This test is unfailing. The average farmer is conservative. He is not a speculator and he is not easily stampeded. When he spends his money to advertise his pure-bred cattle, horses, sheep, or swine, he demands results. He selects a farm paper that is read

These are many fake farm papers. They may fool advertisers, but they do not fool the farmers. They have plenty of fake advertising, but no live stock advertising placed by real farmers.

By This Test

FARMER makes good. Nearly two hundred farmers and stockmen are advertising in each issue. Their business shows an increase of more than 50% over last year.

in the months of October, November, December, January February and March the live stock advertising in this paper ran up to nearly 500 inches in each issue. It filled nearly eight pages of space. Most of this farmers advertising stays in the paper the year

This means semething. It means a great circulation among the best class of farmers and stockmen in the west. It means that THE TWEN-TIETH CENTURY FARMER is a real farm paper, read by real farmers.

65,000 Paid Subscribers

The subscription list of THE TWEN-TIETH SENTURY FARMER is a paid list, and 65,000 farmers are paying one dollar a year each for the paper. There is no free list except to advertisers. Thirty subscription solicitors are now at work in Nebrasks, Iowa, Missouri and Kansas. They work at all the big fairs and live stock shows in the central west, during the fall. At other seasons they work through the country, 2 small towns and at stock yard points. Each new name added to the list means a dollar paid for one year, & se cents for six months. We do not subscribers through guessing commets, or fake schemes. The list is growing at such a rate that we can safely guarantee from 79,000 to 75,000 by January 1st, 1908, but there will be no advance in rates. Write for sample capy and advertising rates.

SEND WORD

THE FARMERS OF THE CENTRAL WEST THROUGH THE ADVERTISING COLUMNS OF

THE TWENTIETH CENTURY FARMER

It is today the greatest selling agent in the Trans-Mississippi country for the manufacturers of farm machinery, for real estate, for mail order goods of any description, for anything, in fact, sold to farmers and stockmen, or to the women folks in the country home. There never was a time in the history of the west when our farmers were so prosperous. They all have money in the bank and they are enjoying not only the comforts but the luxuries of life. They buy pianos, automobiles and diamonds, to say nothing of the thousand-and-one necessities of life. And they are peculiarly susceptible to advertising for many of them live remote from cities and towns. They buy largely by mail and only a few people in the cities realize what a large volume of business is handled for farmers through the post offices and the express companies. Especial attention is called to the demand for cheap land in the west, southwest and in Canada. Thousands of farmers are selling high priced land in the Mississippi and Missouri valleys and are buying cheaper land farther west.

REAL ESTATE DEALERS

Should not overlook this opportunity to send word to the 65,000 farmers who read The Twentieth Century Farmer. Why not tell them what you haye to sell? Why not send in an order for a combination ad. for The Farmer and The Daily Bee? One will reach the people on the farms of the west; the other covers the cities and towns of Nebraska and western Iowa like a blanket. The rates are low. Write for full information. We will co-operate with you in every practical way to secure results.

CONDITION OF OMAHA TRADE

Retailers Are Advised to Keep Their Money Coming In Regularly.

SHORTER TIME MAY BE GIVEN

To Keep Business Sound and Times Prosperous Business Men Should Insist on Business Methods and Trade Will Be Good.

One wholesaler is sending the following advice to his customers, which is held to be sound at all times, and particularly timely when a financial flurry is abroad in the land:

"Do you know that from now on there is to be a general cutting down of credit? Shorter time will be given and very prompt collections will be the rule all along the line. Manufacturers and jobbers have already begun to tighten up on credits. Are you prepared for the conditions that may prevail during the coming winter? We don't need the money and may not need it, but we must all be prepared. Do not make the mistake of jumping on your best customers, but be a business man and do business in a business like way afid begin on the unsatisfactory accounts. Give them some attention. Money should look very good to you in the future. You should get the money yourself."

good to you in the future. You should get the meney yourself."

In general this seems to be the "state of trade," and general attitude of the wholesalers regarding collections. The con-ditions in Omaha are promising and trade for the holidays has been good. The "apot" buying consists largely in the late pur-chases for Christmas.

Holly for Caristmas.

Holly is unusually popular this year and some good orders have been placed, but the trade demands the variety which produces the bright red berries and it is not always easy to get. Evergreen and holly are as much a standard of the country at Christmas time, as flags and fire-crackers on the Fourth of July, and the supply will be ample.

"Mistletoe is dangerous," is as true when it comes to buying the traditional plant as when it is hung in a parlor where there are wicked men standing around among the women. But weather conditions are favorable at present for shipping the plant without the danger of freezing and dealers have been able to get it to the Omaha market without loss, and it may be distributed with equal safety. equal safety.
